

Update instructions for the Ultraplus 700 or 720

Put the USB stick (with the new channel file on it) in to the USB port on the front of the Ultraplus 700 or 720

Wait until you are asked to press the red button (usually only 10 seconds)

The unit will then reboot and you will have the update

**** If you get the no signal message press the SAT button on the remote and go down the list until the signal appears ****
